Comparison of Services Delivered by County Health Departments

The following are services provided by local health departments that in Lancaster do not need to be part of the proposed department because they are currently delivered by private providers:

Chester County

1. Extensive educational services for chronic disease and injury management
2. WIC program
3. Nurse Family Partnership program
4. Extensive water and sewer programs, including meeting Act 537 requirements

Bucks County

1. Correctional facilities health services
2. WIC program
3. Extensive immunization program
4. Home visiting program and five health clinics
5. Extensive water and sewer program with four offices for environmental sanitation

Montgomery County

1. Nurse Family Partnership program

2. Extensive immunization program with three health centers
3. Large tobacco control program
4. West Nile virus program
